EDUCATION

Master of science

2020 – present

Bu-ali sina University

Hamedan – Iran

Major : Mechanical Engineering (Solid mechanics)

Bachelor of science

2015 – 2019

Arak university

Arak – Iran

Major : Mechanical Engineering

High school

2011 – 2015

Magnet school of Motahari

Malayer – Iran

RESEARCH INTEREST

Impact Mechanics

Stress analysis

Energy absorber

Fatigue and fracture

COMPUTER SKILLS

Technical Softwares :

CATIA Solid works ABAQUS

Programming Languages :

MATLAB

LANGUAGE SKILLS

English : Intermediate

Persian : Native

ACADEMIC PROJECTS

Power transmission system design : In this project, we selected the design process by selecting the appropriate motor and material, which includes the design of gears, belts, bearings, shafts and all parts of a power transmission system. At the end of the project, we estimated the price of this system. Also, this project was modeled and analyzed in appropriate softwares .

Supervisor : Dr. sheikholeslami (Spring 2019)
